

# Roles and Responsibilities

# Navy SPS CMO Responsibilities

- 
- Implement PMO SPS Product across original users identified by the Navy (approximately 10,000 users)
  - Includes installation, training and development of Robust baseline SPS product
  - Provide support as baseline system is initially deployed at various Navy sites

# EA-21

## Responsibilities

- **Develop & Implement a Navy End-To-End Paperless Acquisition system by Jan 2000 using SPS baseline product as corner stone**
- **Includes augmenting baseline SPS product, and developing/implementing front end and back end electronic components for paperless acquisition system**

# EA-21

## Responsibilities

- **Develop and manage interfaces in the following categories:**
  - unique interfaces identified over and above those originally contracted for as part of baseline SPS product
  - changes to interfaces and/or new interfaces resulting from augmented SPS product
  - universal interfaces to allow SPS to function with front end/ back end electronic components
  - site specific interface requirements to implement a paperless acquisition system
- **Expand SPS to entire Acquisition Community**

**John.Nyce@peoarbs.navy.mil**  
**Major Responsibilities**

- 
- **Coordinator between EA-21/ Navy SPS CMO teams**
  - **Manage or support all other interface requirements over and above those included as part of SPS baseline**
    - National interface initiatives
    - Site specific interface requirements
  - **Manage or support other national initiatives**
    - Coordinate possible migration to Oracle

# Interfaces Requirements

- **National Initiatives**
  - **Financial Interfaces**
    - Standard Navy Financial Systems (SPS PMO/Navy SPS CMO)
    - Other site specific financial interface requirements (EA-21)
- **SPS Universal Interfaces**
- **SPS DD-350/1057 Automated Interface**

# Unique Interface Requirements by Claimant

- **BUMED**
  - DMLSS
- **MSC**
  - GFET
  - PAYS
- **NAVSEA**
  - EDA
  - EFTS

# Unique Interface Requirements by Claimant

- **NAVAIR**
  - RAPS
  - CMAS/PROMAS
  - WPS
  - IPMS
  - AOP
  - IADB
- **USMC**
  - ?? *All noted are national initiatives...*

# Unique Interface Requirements by Claimant

- **SSP**
  - CATS
  - REMIS
  - STARS
- **NAVFAC**
  - MAXIMO
  - DWCS
  - PMWA

# Unique Interface Requirements by Claimant

- 
- **ONR**
    - INRIS
    - FRONT-END FOR PR GENERATION
  - **NAVSUP**
    - CDA
    - ANSRS

# Unique Interface Requirements by Claimant

- **SPAWAR**
  - PR Router
  - Shipping/Receiving Module for SSC/SD
  - PROMPT
  - EPS
  - AE Storage
  - FMIS
  - RFP Web Page
  - SIS
